Alot. Last year I was only learning times tables, now I'm learning factors and decimals.

Good. Everything. Mostly decimals and fractions. I feel clever when I do factors.

Alot because when I started learning I didn't know much, I was at a low level and now I know algorithms.

Heaps, like I couldn't even read one word and now I can read and my maths is alot better. I used to be a stage 3 and now I'm stage 5. I can write letters super good.

Rapidly, I'm one of the highest in reading, I've moved up a lot.

Rapidly as well. I've really improved in writing- it's my favourite.

Good because we have been learning about different kinds of insects.

I don't know- I think so- Miss Boswell said- I did a great job Miss Boswell wasn't angry and I was smart

Quite well Miss Boswell and Miss Gauntlet teach me alot of things

Good because I have been using careful caterpillar I can use that strategy to slow down my reading and say the word properly. In writing I can start to put in joining words into my sentences so I can make my sentences longer.

My learning has improved because Mrs M-D talks to me in a way that I understand.

My learning has improved because Mrs M-D helps you get through it and learn the stuff.

I like Mrs M-D because she helps me get rid of my stress and do my art work.

Good. I'm getting better at writing and takeaways and times tables.

I feel it has improved by quite a bit.

I was really low and now I've gone up 20 levels.

Mine has gone quite good.

### What could your teacher do differently to help you learn?

No, she's perfect like Mrs Chang.  
She already does stuff pretty great,  
She does a really good job as a teacher.  
Nothing.  
Stop being so sporty. (Jokes)  
She is really nice, funny and a great teacher.  
I don't know really. I like the way I'm learning right now.  
She's perfect.  
She doesn't need to change.  
She's already a good teacher.  
She's so kind.  
She's my life.  
It's too hard. She's good.  
She needs to get strong. I'm going to tell her to be strong when we leave.  
It went really fast. I don't want to leave this school.  
He should teach us different birds from other places  
Maybe more about writing  
Learn some harder equations  
Nothing, she's doing all good.  
The way she's been teaching us is improving us, helps us to get to new stages and levels.  
Reflection helps us improve.  
I think she can help us be better with some cleaning. She has a messy desk. It would be hard work for her.  
No they're good and it's fun  
She could say get rid of the letters that are wrong.  
There is nothing she can't do.  
She is super nice.

She has to teach us how to do a tricky book. Like the Fox and the Stork (?) the one that is yellow. The Little Bulldozer. There's not really much. Maybe seeing his groups a more often. He should talk a bit more in groups.
